

# VANBERG SPECIALIZED COATINGS

CONCRETE REPAIR & PROTECTION PRODUCTS

## INDUSTRIAL & COMMERCIAL FLOOR COATING SYSTEMS

**Impress Customers & Visitors with Beautiful Attractive Floors  
Employees Enjoy Bright, Clean & Easy to Maintain Facilities**

**Vanberg Specialized Coatings, a Lenexa, Kansas company, offers permanent coating solutions to concrete floors and walls in manufacturing, food processing, automotive and many other commercial facilities.**

**Since 1985 VSC has been working to develop the highest quality floor coating products. Our technical support and installation personnel have years of experience to share with our customers.**

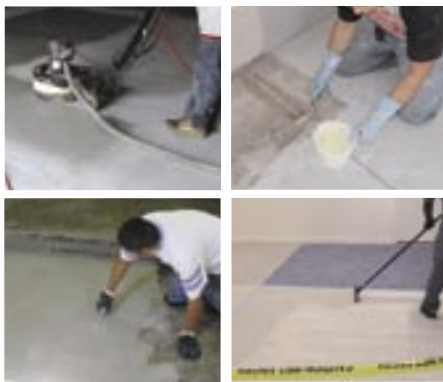

**Our warehouse is 6,500 square feet of coatings, supplies and equipment conveniently located near Highway 35-South and 95th Street (9209 Quivera Road).**

# MUCH MORE THAN A SUPPLIER OF QUALITY COATINGS...

<b>ON-SITE INSPECTION SERVICE</b>	Our technical representatives help you determine what is needed.
<b>COATING OR REPAIR SYSTEM ANALYSIS</b>	We help you determine the best solution to fit your need and budget.
<b>TRAINED &amp; AUTHORIZED APPLICATORS</b>	Experienced applicators will get your project completed properly and on time.
<b>INSTALLATION TRAINING</b>	Our coating specialists can train your in-house people on how to install products professionally and at your convenience.
<b>PROFESSIONAL TOOLS &amp; SUPPLIES</b>	Our coating supply store has all the products, tools and supplies needed to get the job done right. Equipment rental, too!
<b>TECHNICAL SUPPORT</b>	Questions on the job? Our specialists will help your people get answers quickly.
<b>PRODUCT DELIVERY SERVICE</b>	If you don't have the time to pick up equipment and materials, we can deliver.

*Wide variety of products! Virtually any floor system need can be fulfilled by VSC...small or large.*

**OUR PROCESS** starts with thorough substrate preparation. Our applicators utilize special diamond grinding equipment with 'dust' collectors.

Following preparation, all cracks, saw cuts, seams, pits and imperfections are filled and leveled. Once the substrate is properly prepared and leveled, the selected VSC Floor System is installed. All VSC contractors are trained to maintain a clean zone during the preparation and installation process.

Once completed, our customers have a transformed floor. One that is durable, attractive, light reflective, oil and stain resistant and easy to maintain. All VSC products come with the VSC Quality Assurance Guarantee.
