ULTRA-GLOSS CRU

A two component aliphatic urethane that provides superior chemical and wear resistance to any surface. It's gloss and scratch resistance produces an attractive long lasting topcoat ideal for many applications.

Clear and a variety of attractive colors are available. ULTRA-GLOSS CRU is an excellent attractive protective coating over a multitude of existing coatings and stains. It is also a great stand-alone coating over a VSC primer.

Typical Coverage: 300 sq. ft. per gallon at 5 mils.; 400 sq. ft. per gallon at 4 mils. (Typical); 500 sq. ft. per gallon at 3 mils.

Product Availability:

- #UG321 1.5 Gal. (clear)
- #UG321-3 3 Gal. (clear)
- #UG321-15 15 Gal. (clear)

VSC PRIMERS

EPO-SEAL WB EPOXY A fast setting (about 1 hour) low odor primer or sealer. **Typical Coverage:** 400 sq. ft. per gallon.

- #ES2300-3 3 Gal. (clear)
- #ES2300-15 15 Gal. (clear)

ARMORCOAT EPOXY 57 A clear solvent based epoxy primer or sealer. **Typical Coverage:** 300 sq. ft. per gallon.

- #AC154-2 2 Gal. (clear)
- #AC154-10 10 Gal. (clear)

COLOR ADDITIVES

Add to pigment clear ULTRA-GLOSS CRU. Choose from 18 popular colors. Special colors available upon request. Available in 1 Qt. units (4/cs). Use 1 pint per gallon of urethane for most colors. Add 2 pints per gallon of urethane for white and yellow.

OTHER VSC URETHANES

VSC POLYASPARTIC URETHANE (Fast-Set Coatings)
WB ACRYLIC URETHANE (Water-Based Low Odor Coating)

See appropriate literature and data sheets for additional product and application information.
